Demo Session

The demonstrations at WUWNet aim at complementing the overall program of the conference by showing real-world, applied-and-tested advances of underwater technologies. As such, demos are an opportunity for researchers and practitioners to present their innovative prototypes, practical developments, on-going projects, and lessons learnt relevant for the topics of interest of the main conference. Submissions from both industry and universities are encouraged.

Demo Submission Instructions

Submit an extended abstract (no more than 2 pages) of your demo as a PDF e-mail attachment to: jimqufz@zju.edu.cn using the following subject line: "WUWNet 2018 Demo Submission".

Please, be as specific as possible in describing what you will demonstrate or exhibit. The extended abstract must include a short description of space and equipment requirements.

Accepted abstracts will be posted and maintained on the workshop website.

Demo Chair

- **Fengzhong Qu** (Zhejiang University)

Award

There will be one or two demo awards, depending on the number of demos.

Important Dates

Demo abstract due date: November 5th, 2018

Notification of acceptance: November 20th, 2018
